

## GENERAL VIEW OF BPSG

## GENERAL DESCRIPTION

Optima BPSG Series Security Gates are designed for complete and secure closure of the passageway and used for control of pedestrian access. The gate provides a high level of security against the threat of armed attack thanks to its bulletproof panel. Optima BPSG Security Gates can also be custom-designed upon request according to specific requirements.

## ENVIRONMENTAL CONDITIONS AND POWER REQUIREMENT

Between -15°C and +65°C, 95% non-condensing humidity, 24V DC.
